presents:

e.diamond

Characteristics:

UNIVERSAL

Can be used with all types of 2k transparent finishes in many fields
Ex: automotive, nautical, & industrial paints etc.

HIGHLY DECORATIVE EFFECT

The finish gives off a diamond effect superior to metallic,glitter and pearl finishes
Available in 6 color tones that can be extended up to 12 color tones

EASY TO USE AND PRECISE

Add to any clearcoat already utilized. The transparent finish is ready to be used on any opaque or pastel basecoat. Can also be used on older paints with sanding. Thanks to the precise measurement of each application, produces one liter of transparent finish which will give a perfect diamond effect finish to any product.

QUICK TO USE

Does not require sanding or shining after application to acheive the desired effect.

ECONOMICAL

Economical as it requires very little preparation and applicaiton time.

Instructions for use:

Thoroughly mix the prepared container of diamond effect finish bringing it to a homogenous state shake well for 1-2 MIN.

Add a liter of transparent 2K clear coat and mix thoroughly
1 MIN.

Prepare the mixed solution with a hardener and reducer if necessary and apply and dry as normal
Max. 30 MIN.
